

Nationals of many countries must have a visa to enter Germany. Please ensure that you obtain the essential documents in good time.

Patients and accompanying persons must take out medical travel insurance before entering Germany. The insurance must therefore be taken out in the home country.

We ask our patients to bring their current medical results with them to spare them additional examinations. Apart from medical documents, such results include X-rays, CT or MRI images or tissue specimens.

Patients who regularly take medication at home should bring it with them or a complete list of their medication.
